## Meth Materials

Some of the materials used in the dangerous "Shake N Bake" method of meth manufacturing.

## Heroin/Methamphetamines

As we continue to pursue the heroin issues plaguing Lincoln and the bigger issues throughout Illinois with heroin, there has been a resurgence of methamphetamine production in smaller communities. Even with the tighter laws that Illinois implemented years ago to combat meth production, users are finding a way around those laws. Are officers recently made several meth arrests and continue making cases on heroin dealers in our community.

Heroin can be deadly if not used correctly to the user. Meth can be deadly to those using, manufacturing, and the families that live near where this deadly chemicals are being combined.

The Lincoln Police will continue to pursue those dealing and manufacturing both illegal narcotics in our community and we are working with agencies around us to try to cut off some of the suppliers of heroin. The war on drugs has been a long drawn out battle and without assistance from State and Federal legislators for treatment programs that are more readily available, this will continue to be a deadly problem for all communities.
